Linear Equations in Two Variables Class 9 Worksheet

Find two different solutions of the equation $x + 2y = 6$**.**

Find two different solutions of the equation $3x + 2y = -6$**.**

Find two different solutions of the equation $\dfrac{4x}{2} - y = 14$ **.**

Find two different solutions of the equation $\dfrac{x}{2} - \dfrac{y}{3} = 14$**.**
